

I travel 65 miles each way to and from work. I spend an average of 2 1/2 hrs each day in my car. XM has made my time in my car more pleasurable because of the commercial free music and other shows. I check the traffic often and need updates on the flow of traffic for ease of travel. If XM is restricted to offer this service I then have to shut off the the XM reciever and turn to the local station on the car radio waiting for the next update. I don't think I need to go into detail of the distraction this would be to nearly listen for traffic updates.

Please allow XM to continue to the best radio system that I have enjoyed in years.
